Pricedex® AutoPIM Pro™ is an enterprise-class Product Information Management (PIM) system which provides an end-to-end solution for all aspects of Part, Product, Pricing and Catalog Management, and outputs Customer data requirements to a broad number of catalog standards, including the ACES and PIES standards.

Now aftermarket companies can communicate synchronized product information throughout the supply chain, ensuring the right part, at the right price, is available with the right information at the right time – *every time*.

Off-the-Shelf and configurable
AutoPIM Pro™ empowers companies to manage much more than basic information. AutoPIM Pro™ is a total solution which incorporates full Digital Asset Management, Interchanges, Supersessions, Product Lifecycles, Customer Requirements, and all the third-party research data needed to support informed product release decisions. Now all product stakeholders can easily collaborate on a single platform, working from one single source of the truth.

Product Management, Pricing, Cataloging, Publishing & Data Exchange, in one System

AutoPIM Pro has extensive utilities to create connectors to other business and ERP systems, and directly with e-Commerce and customer business systems. Full language and currency capabilities, coupled with a world-class Pricing engine, enable the creation of multilingual, multicurrency regional catalogs, promotions and more. Publish entire books, or Net Changes using the powerful publishing engine, which also supports cross-media publishing to the Web, CD-ROM, and even paper catalogs. AutoPIM Pro is the total solution for aftermarket sales support.

Auto PIM Pro Benefits

Maintain standards for multiple markets (light vehicle, heavy duty, off road, etc.)

Extensive mapping tools enable data exports to multiple catalog formats and other industry standards

Cross Media Publishing Engine publishes to XML, CD ROM and paper catalogs.

Pricing Engine enables integration of pricing with catalogs for rapid time to market of accurate product information.
